

# Glossary

## **advanced attack helicopter (AAH)**

[N-C-U10]: a special ground assault aircraft with twin engines and heavy firepower. **śmigłowiec szturmowy**

## **aero-medical evacuation** [N-C-U9]:

the transport of sick or injured personnel by way of specialized aircraft. **ewakuacja rannych drogą powietrzną**

## **aid and litter team** [N-C-U13]:

a patrol element responsible for removing and treating casualties during an operation.

## **zespół ewakuacji rannych**

## **air-to-air missile** [N-C-U10]:

a guided projectile fired from one aircraft with the purpose of destroying another aircraft. **pocisk powietrze-powietrze**

## **airburst munitions** [N-UNC-U4]:

small grenades fired from a weapon and pre-set to explode above or beside hidden targets. **amunicja eksplodująca w powietrzu**

## **all-wheel drive** [ADJ-U7]: (vehide)

when every wheel is being used by the engine to propel the vehide.

## **pojazd z napędem na wszystkie koła**

## **ambulance** [N-C-U6]: a vehide

equipped to transport the sick or injured. **ambulans (karetką)**

## **ambush** [N-C-U1]: a sudden attack

from a hidden position. **zasadzka**

## **ammunition** [N-UNC-U3]: the

projectiles that can be fired from a weapon, such as bullets or shells.

## **amunicja**

## **ammunition belt** [N-C-U3]: a device

that stores cartridges and feeds them into a gun to be fired. **taśma**

## **z amunicją**

## **amphibious** [ADJ-U5]: (vehides) able

to travel both on land and in water.

## **pływający (zdolny do poruszania się po lądzie i wodzie)**

## **anti-infiltration device** [N-C-U1]:

a weapon used to keep military personnel or vehides out of an area.

## **mina (miny) zakładana w celu utrudnienia dostępu jednostek przeciwnika do określonego rejonu**

## **anti-personnel land mine (APL)**

[N-C-U1]: an explosive device used to damage enemy infantry by its blast or fragments. **mina przeciwpiechotna**

## **anti-tank guided missile (ATGM)**

[N-C-U2]: a projectile designed to destroy heavily-armored vehides.

## **rakietowy przeciwpancerny pocisk kierowany (rppk)**

## **Apache** [N-C-U10]: an advanced

attack helicopter. **“Apacz” (rodzaj śmigłowca szturmowego)**

## **area-denial weapon** [N-C-U1]:

a weapon used to limit or deny land access to military traffic. **mina (miny) zakładane w celu utrudnienia dostępu do określonego rejonu**

## **armaments** [N-C-U5]: the weapons

and supplies of combat. **uzbrojenie**

## **armor-piercing** [ADJ-U7]: (projectile)

able to penetrate armor.

## **przeciwpancerny (zdolny do przebijania pancerza)**

## **armored personnel carrier (APC)**

[N-C-U5]: a vehide used to transport infantry to the front lines quickly and safely. **transporter opancerzony**

## **arsenal** [N-C-U8]: a supply of

weapons. **arsenał (posiadana broń)**

## **auto-cannon** [N-C-U5]: a rapid-fire

weapon that fires shells instead of bullets. **działko szybkostrzelne**

## **Avenger** [N-C-U8]: air defense system

consisting of an HMMWV mounted with launch pods that can fire eight surface-to-air missiles. **„Mściciel” (rodzaj broni – system obrony przeciwlotniczej)**

## **avionics** [N-UNC-U9]: the electronic

systems and devices used in aircrafts. **awionika**

## **battle-taxi** [N-C-U5]: a nickname for

an armored personnel carrier. **dosł. taksówka bojowa – nieformalne określenie transportera opancerzonego**

## **bipod** [N-C-U3]: a two-legged

structure that supports rifles, machine guns or other long-barreled weapons. **dwójnóg (podpórka)**

## **Black Hawk** [N-C-U9]: a utility

helicopter. **„Czarny jastrząb” (rodzaj śmigłowca wojskowego)**

## **body armor** [N-UNC-U4]: a protective

covering designed to defend the body from weapons. **kamizelka kuloodporna**

## **buffer zone** [N-C-U11]: an area that

keeps two or more regions distant from one another. **strefa buforowa**

## **bullet** [N-C-U3]: a small metal object that is fired from a gun’s barrel. **nabój (kula)**

## **bullet-resistant glass** [N-UNC-U6]:

a material used in various military vehide windows, designed to withstand gunfire. **szkło kuloodporne**

## **caliber** [N-UNC-U3]: the

measurement of the inside of a gun’s barrel or the width of a bullet.

## **kaliber**

## **cargo** [N-C-U6]: the goods being

transported by a ship, aircraft, or other vehide. **ładunek**

## **cartridge** [N-C-U4]: the casing for

a firearm’s ammunition. **nabój (także łuska)**

## **ceasefire** [N-C-U11]: an order for

armies to stop fighting. **zawieszenie broni**

## **chain flail** [N-C-U1]: a device used by

mine clearing machines to beat the ground and safely detonate mines in the vehide’s path. **„cep łańcuchowy” (element urządzenia niszczącego miny)**

## **checkpoint** [N-C-U15]: a place where

a military unit can inspect people and vehides passing through a certain location. **punkt (posterunek)**

## **kontrolny**

## **choke point** [N-C-U12]: a narrow

passage on a route. **zwążenie drogi (mogące powodować opóźnienia w ruchu)**

## **civil war** [N-C-U11]: a war between

two regions or groups of the same country. **wojna domowa**

## **Claymore** [N-C-U1]: an anti-personnel

mine that discharges shrapnel in an arc toward the enemy. **rodzaj**

**kierunkowej miny przeciwpiechotnej (pierwotnie nazwa szkockiego miecza)**

# Glossary

## **closed checkpoint** [N-C-U15]:

a checkpoint that limits or denies access to a route, much like a roadblock. **posterunek kontrolny blokujący przejazd**

**combat identification panel** [N-C-U6]: a device mounted on military vehicles to allow them to be told apart from the enemy during battle. **tablica identyfikacyjna (działająca na podczerwień)**

**combat patrol** [N-C-U13]: a military unit given the job of destroying or capturing the enemy or the enemy's properties. **patrol bojowy**

**combat search and rescue** (CSAR) [N-UN-C-U14]: a search and rescue mission carried out in or near a combat zone. **misja poszukiwawczo-ratunkowa w strefie walki (lub w pobliżu tej strefy)**

**command detonation** [ADJ-U1]: (mode) when a mine is set off by the operator. **zdalna detonacja (inicjowana przez operatora)**

**compass man** [N-C-U13]: the member of a patrol who assists in navigation by keeping the group on course. **żołnierz w patrolu określający kierunek marszu**

**console display** [N-C-U8]: the visual piece of a central control or instrument panel. **ekran wyświetlający danego urządzenia**

**convoy** [N-C-U12]: a group of vehicles traveling together for safety and support. **konwój**

**convoy commander** [N-C-U12]: the leader in charge of an entire convoy operation. **dowódca konwoju**

**copilot-gunner** [N-C-U10]: the member of an aircraft crew who assists the pilot by operating an aircraft's weaponry. **operator broni pokładowej**

**CornerShot** [N-C-U4]: a firearm that bends in the middle, allowing the shooter to fire around a corner. **broń składana umożliwiająca strzelanie zza narożnika budynku**

**current intelligence** [N-UNC-U14]: the most up-to-date data concerning a route, terrain, or enemy unit. **najświeższe (bieżące, aktualne)**

## **dane wywiadowcze**

**deliberate checkpoint** [N-C-U15]: a semi-permanent installation where a military unit can inspect people or vehicles passing through a location. **zawczasu przygotowany posterunek kontrolny**

**demilitarized zone** (DMZ) [N-C-U11]: a buffer zone devoid of any and all military action. **strefa zdemilitaryzowana**

**demobilize** [V-T or I-U11]: to release from military use or service.

**zdemobilizować (wycofać z użytku)**

**direct-fire battle** [N-C-U5]: an exchange of fire when two forces are close enough for their weapons to be able to aim on the targets themselves. **walka z użyciem ognia bezpośredniego**

**disarm** [V-T or I-U11]: to rid an army of weapons. **rozbroić**

**disengagement** [N-C-U11]: the act of making two things separate from each other, such as two armies in battle.

**rozdzielenie wojsk (wycofanie z walki)**

**distressed personnel** [N-UNC-U14]: military persons in need of immediate assistance. **osoby potrzebujące pomocy**

**driver fatigue** [N-UNC-U12]: when a vehicle operator becomes too tired to drive safely. **przemęczenie kierowcy**

**drum** [N-C-U3]: a type of firearm magazine shaped like a cylinder that stores rounds in a spiral shape. **bęben (z nabojami)**

**element** [N-C-U13]: a single aspect of a military operation. **element (np. operacji wojskowej)**

**escape route** [N-C-U15]: a quick and safe passage from a location. **droga ucieczki (wycofania)**

**evasion** [N-C-U14]: the act of escaping or avoiding an enemy unit. **unikanie przeciwnika**

**evasion plan of action** (EPA) [N-C-U14]: a strategy for avoiding the enemy during a search and rescue mission. **plan unikania przeciwnika**

**explosive** [N-C-U1]: a substance that

bursts violently or causes a burst to occur. **materiał wybuchowy**

**explosive-reactive armor** (ERA) [N-UNC-U2]: a defense used on certain military vehicles that detonates any penetrating weapons, causing them to explode away from their targets. **pancerz reaktywny**

**explosively formed penetrator** (EFP) [N-C-U6]: a special type of charge designed to pierce through armor. **pocisk kumulacyjny**

**external stores support system** (ESSS) [N-C-U9]: a structure of stub wings on the fuselage of an aircraft that is able to carry fuel tanks or weapons. **belka podkadłubowa (zaczep wielofunkcyjny)**

**fire-and-forget** [ADJ-U2]: (weapon) when the projectile requires no human guidance after it has been launched. **broń typu „wystrel i zapomnij”**

**fire support** [N-UNC-U5]: long-range firepower that helps military units on the front line, e.g. by way of artillery or aircraft. **wsparcie ogniowe**

**fixed-wing aircraft** [N-C-U8]: (e.g. airplane) having wings permanently attached to the craft's fuselage that do not provide power or thrust. **samolot (pojazd powietrzny ze skrzydłami mocowanymi na stałe)**

**fording kit** [N-C-U6]: a set of equipment that allows a vehicle to travel through water of various depths. **zestaw do przekraczania przeszkód wodnych**

**forward area air defense** (FAAD) [N-UNC-U8]: a mobile, short-range security system made to defeat low-flying aircraft. **system wysuniętej mobilnej obrony przeciwlotniczej**

**four-wheel drive** [ADJ-U6]: (vehicle) when all four wheels are being used by the engine to propel the vehicle. **napęd na cztery koła (pojazd z takim napędem)**

**friendly fire** [N-UNC-U6]: when one injures one's own unit while trying to harm the enemy. **dość. „ogień przyjazny” – przypadkowy ostrzał wojsk własnych (sprzymierzonych)**

**fully-automatic firearm** [N-C-U3]:

# Glossary

a weapon that automatically fires bullets and ejects the spent shells until the trigger is released. **broń w pełni automatyczna**

**fuselage** [N-C-U9]: the main part of an aircraft, to which the wings and tail are attached. **kadłub samolotu**

**Gatling-style** [ADJ-U9]: (weapon) using multiple barrels that rotate in a cycle after each round is fired. **broń w rodzaju wielolufowej kartacznicy**

**global positioning system (GPS)** [N-C-U9]: an electronic device that uses satellites in order to allow the operator to navigate a terrain. **system nawigacji satelitarnej (GPS)**

**ground clearance** [N-UNC-U6]: the measurement from the lowest hanging part under a vehicle to the ground. **wysokość zawieszenia (odległość między podwoziem a ziemią)**

**guidance system** [N-C-U2]: a device or set of devices that allow the operator to navigate an aircraft, missile, rocket, or other vehicle.

**system naprowadzania**

**gyro-stabilized turret** [N-C-U8]: an armored structure with an axle that is able to spin in all directions in order to aim at any target. **wieżyczka stabilizowana żyroskopowo**

**halt** [N-C-U12]: a planned rest stop along a convoy's route. **postój (konwoju)**

**headquarters** [N-UNC-U12]: the center of operations for a military unit from which orders are issued. **kwatery główna, sztab**

**hasty checkpoint** [N-C-U15]: a temporary location where a military unit can inspect people or vehicles passing through an area. **doraźnie zorganizowany posterunek kontrolny**

**helmet mounted display** [N-C-U10]: a device that allows an aircraft pilot or gunner to aim weaponry at target in the direction his/her head is facing. **celownik sprzężony z hełmem**

**high mobility multi-purpose wheeled vehicle (HMMWV)** [N-C-U6]: a widely-used military vehicle that is able to perform a variety of

duties including troop transport, medical aid, and being a weapons platform. **wielozadaniowy pojazd kołowy (Humvee)**

**holding area** [N-C-U15]: an enclosed location near a checkpoint where a person or vehicle can be inspected more closely by a military unit. **wydzielone miejsce do kontroli pojazdów lub osób**

**hostile element** [N-C-U15]: any part of an enemy unit. **dowolna część oddziału nieprzyjaciela**

**humanitarian** [N-C-U11]: someone devoted to the well-being of other people. **humanitarny**

**improvised explosive device** [N-C-U5]: a homemade bomb made and deployed in ways different from those in standard military action.

**improvizowany ładunek wybuchowy**

**infantry fighting vehicle (IFV)** [N-C-U5]: a troop transport that is fitted with enough armor and weaponry to engage in direct-fire battle. **bojowy wóz piechoty**

**infrared homing** [ADJ-U2]: a guidance system that uses the electromagnetic radiation given off by a target to track it. **naprowadzanie na podczerwień**

**insurgent** [N-C-U15]: is a member of the enemy force. **powstaniec, buntownik, partyzant**

**interpreter** [N-C-U15]: someone who can translate one language into another. **tłumacz (języka mówionego)**

**interrogator** [N-C-U15]: someone who examines a person by asking questions. **osoba prowadząca przesłuchanie**

**Javelin** [N-C-U2]: a man-portable anti-tank guided missile. **„Oszczep” – rodzaj granatnika (przenośnej wyrzutni pocisków)**

**land mine** [N-C-U1]: an explosive device usually detonated by contact. **mina lądowa**

**laser-guided missile** [N-C-U9]: a projectile that is fired at a target using a laser beam to aim it. **pocisk naprowadzany laserowo**

**lateral attack** [N-C-U6]: an assault

from the side, as opposed to from above or below. **atak z flanki**

**launch** [V-T or I-U2]: to propel with force. **odpalenie (start)**

**launch pod** [N-C-U8]: a structure from which a rocket or missile is fired.

**wyrzutnia (urządzenie, z którego następuje odpalenie)**

**line of sight** [N-C-U2]: the imaginary line from the human eye to the target.

**linia celowania (linia łącząca oko z celem)**

**Longbow** [N-C-U10]: an advanced attack helicopter in the Apache group. **„Długi łuk” – rodzaj śmigłowca szturmowego**

**low-velocity cannon** [N-C-U4]: a cannon which fires shells at a low speed for short ranges. **armata o niskiej prędkości wylotowej pocisku**

**machine gun** [N-C-U3]: an automatic firearm that can shoot bullets one after the other very quickly. **karabin maszynowy**

**magazine** [N-C-U3]: the part of a gun where cartridges are stored before use. **magazynek**

**man-portable** [ADJ-U2]: can be transported by a person, without the help of a vehicle. **przenośny**

**mandate** [N-C-U11]: a command or instruction given by a figure of authority. **mandat (uprawnienia do działania)**

**march column** [N-C-U12]: the line of vehicles that makes up a convoy. **kolumna marszowa**

**mine clearing machine** [N-C-U1]: a vehicle that creates a safe path for soldiers through a minefield. **pojazd (maszyna) do usuwania min**

**mine plow** [N-C-U1]: a device used to push land mines out of the path of a tank. **pląg przeciwminowy**

**minefield** [N-C-U1]: an area in which a military has used land mines. **pole minowe**

**minefield dispersal system** [N-C-U9]: a system used to quickly lay land mines over a wide area, by way of fired artillery or dropped bombs. **system minowania narzutowego**

# Glossary

**mobile support unit** [N-C-U8]:

a vehicle- or aircraft-mounted defense system used to protect ground troops.

**mobilny system wsparcia (system broni wspierającej wojska lądowe montowany na pojazdach lub statkach powietrznych)**

**motor pool** [N-C-U5]: a group or fleet of vehicles. **park sprzętu**

**technicznego (flota pojazdów)**

**MP7** [N-C-U4]: a submachine gun that uses armor-piercing ammunition similar to that used by modern rifles.

**typ karabinka automatycznego**

**night vision** [N-UNC-U10]: A device with night vision gives the operator the ability to see in a dark environment. **noktowizor**

**nose-mounted** [ADJ-U10]: (device) attached to an aircraft's most forward point (the nose). **montowany w części nosowej samolotu**

**objective** [N-C-U13]: a goal that one works toward. **cel**

**objective area** [N-C-U14]: the location at which a military unit's mission is aimed. **rejon celu**

**obstacle** [N-C-U15]: something that blocks or stands in the way of progress. **przeszkoda**

**on-scene commander** [N-C-U14]: the leader of a search and rescue mission. **dowodzący w miejscu prowadzenia akcji poszukiwawczo-ratunkowej**

**optical** [ADJ-U2]: relating to the ability to see. **optyczny**

**pacesetter** [N-C-U12]: the lead vehicle in a convoy that makes sure the planned schedule is followed. **pojazd dyktujący tempo marszu (prowadzący kolumnę)**

**patrol** [N-C-U13]: a military unit assigned to observe or take action in a specific area. **patrol**

**patrol leader** [N-C-U13]: the commander of a patrol. **dowódca patrolu**

**peace accord** [N-C-U11]: an agreement between warring groups to stop fighting. **porozumienie pokojowe**

**peacekeeping** [ADJ-U11]: (mission or

force) with the objective of upholding peace among hostile groups.

**utrzymywanie pokoju (jeden z rodzajów działań pokojowych)**

**penetrating weapon** [N-C-U2]: a weapon designed to break into or pierce a target. **broń przebijająca cel**

**periscope** [N-C-U7]: a device that uses mirrors to allow the operator to view an environment from an indirect line of sight. **peryskop**

**prototype** [N-C-U4]: an original form or design of a device. **prototyp**

**rate of fire** [N-UNC-U3]: the speed at which a weapon can discharge its projectiles. **szybkostrzelność**

**rear vehicle** [N-C-U12]: one of the last members of a convoy, responsible for maintenance, recovery, and medical aid. **jeden z ostatnich pojazdów w konwoju (zabezpieczający konwój pod względem logistycznym i medycznym)**

**recoil** [N-UNC-U3]: the abrupt backward movement a gun makes when it is fired. **odrzut (podczas wystrzału)**

**reconnaissance patrol** [N-C-U13]: a military unit that provides current information on the enemy and terrain. **patrol rozpoznawczy**

**reconstruction** [N-UNC-U11]: the act of building again or renewing.

**odbudowa**

**recovery** [N-C-U14]: the act of getting back or reclaiming a person or object. **ratowanie osób lub odzyskiwanie (naprawa) sprzętu**

**release point** [N-C-U12]: the final destination of a military convoy. **cel (miejsce) do którego ma dotrzeć konwój**

**remote control unit (RCU)** [N-C-U8]: a unit that allows the crew to operate a vehicle's weapons from a distance. **urządzenie do zdalnego sterowania**

**remote weapon station (RWS)** [N-C-U7]: a munitions platform that can be operated from a distance. **broń zdalnie sterowana**

**rescue combat air patrol (RESCAP)**

[N-C-U14]: an aircraft that provides fire support over an objective area for a combat search and rescue mission.

**ogniowe wsparcie powietrzne operacji poszukiwawczo-ratunkowej**

**rescue escort (RESCORT)** [N-C-U14]: an aircraft that provides fire support to a combat search and rescue mission on route to and from the objective area.

**ogniowe wsparcie powietrzne operacji poszukiwawczo-ratunkowej w formie eskorty do celu i w drodze powrotnej**

**risk management assessment** [N-C-U12]: a detailed description of a convoy route's physical dangers.

**określenie stopnia ryzyka (np. niebezpiecznych miejsc na drodze konwoju)**

**roadblock** [N-C-U15]: a barricade or obstruction preventing access to a route. **blokada drogi**

**rounds per minute** [PHRASE-U3]: the speed at which a gun can fire cartridges over the course of one minute. **naboi na minutę (dla określenia szybkostrzelności)**

**run-flat tire** [N-C-U7]: a tire that is designed to keep being useful to a vehicle after it has been punctured.

**opona, która po przestrzeleniu w dalszym ciągu jest sprawna**

**sandbag** [N-C-U4]: a bag filled with sand, used in the creation of barriers or obstacles. **worek z piaskiem**

**SAR Task Force (SARTF)** [N-C-U14]: a military unit that recovers distressed personnel from a combat zone. **zespół do ewakuowania rannych ze strefy walki**

**scout** [V-T or I-U13]: to explore or observe in order to gain information. **prowadzić zwiad**

**search and rescue (SAR)** [N-UNC-U14]: missions to recover personnel isolated from their unit and perhaps in danger. **poszukiwanie i ratownictwo**

**self-destruct** [V-I-U1]: (e.g. mine) destroy itself. **mechanizm samozniszczenia**

**shoulder-launched weapon** [N-C-U2]: a weapon that fires a projectile (usually a missile or rocket) at a target

# Glossary

and is small enough to be carried by a single person. **przenośny granatnik (wyrzutnia pocisków) odpalany z ramienia operatora**

**shrapnel** [N-UNC-U1]: the fragments from an explosive; also, the metal balls in certain artillery shells. **odłamek (także element ładunku rozpryskowego)**

**slat armor** [N-UNC-U7]: a defensive covering used on certain military vehicles, that is able to detonate explosive rounds before they hit the vehicle's hull. **pancerz osłonowy (detonujący pociski przed ich dotarciem do kadłuba pojazdu)**

**slew-to-cue** [ADJ-U8]: (turret) able to shift into position automatically when the operator selects a target on a console display. **broń automatycznie kierująca się na cel wybrany na ekranie przez operatora**

**sling** [N-C-U9]: a construction used for lifting and carrying an object. **konstrukcja do przenoszenia i podtrzymywania ładunku**

**special-purpose weapon** [N-C-U4]: a firearm that combines more than one function, such as a rifle with a grenade launcher attached. **broń wielofunkcyjna**

**Stryker** [N-C-U7]: a type of infantry fighting vehicle used by the United States Army. **typ bojowego wozu piechoty**

**Stryker Brigade Combat Team** [N-C-U7]: a group of Stryker IFVs that work together toward a common goal. **grupa bojowych wozów piechoty typu Stryker**

**stub wing** [N-C-U9]: a type of wing on an aircraft that allows extra weight to be carried. **typ skrzydła umożliwiającego przewożenie ładunków (np. paliwa)**

**submachine gun** [N-C-U4]: a firearm that combines the automatic fire of a machine gun and the cartridge of a pistol. **pistolet maszynowy**

**suppressive fire** [N-UNC-U3]: the discharge of weapons at the enemy to keep them from seeing, tracking, or firing at a target. **ogień obezwładniający**

**surface-to-air missile** [N-C-U5]: a projectile fired from a device on the ground with the purpose of destroying an aircraft. **pocisk ziemia-powietrze**

**surveillance** [N-UNC-U13]: the close observation of a person or group. **rozpoznanie (systematyczna obserwacja miejsc lub osób)**

**tactical group** [N-C-U13]: a military unit that carries out an operation. **grupa taktyczna**

**tactical transport** [N-UNC-U9]: the movement of personnel or equipment by way of a ground vehicle or aircraft. **taktyczny naziemny lub powietrzny transport osób i sprzętu**

**tandem cockpit** [N-C-U10]: an aircraft cockpit which seats two crew members, one behind the other. **kokpit dla dwóch członków załogi (siedzących jeden za drugim)**

**tandem warhead** [N-C-U2]: an explosive projectile that detonates two separate charges, the first to destroy explosive-reactive armor and the second to penetrate the main armor of a target. **podwójna głowica bojowa**

**Target Acquisition and Designation System (TADS)** [N-C-U10]: a device that allows a helicopter gunner to aim at a target with a helmet-mounted display. **system celowniczy sprzężony z hełmem działonowego w śmigłowcu**

**thermal** [ADJ-U2]: related to the sensation or observation of heat. **termiczny, mający związek z emisją ciepła**

**thermal-imaging camera** [N-C-U7]: a camera which allows the user to see a target by the heat it gives off. **kamera rejestrująca obiekty emitujące ciepło**

**threat awareness** [N-UNC-U15]: the ability to recognize immediate danger. **zdolność do rozpoznawania zagrożeń**

**time-delay** [ADJ-U1]: (device) set to operate after a fixed amount of time has passed. **opóźnionego działania (np. urządzenie)**

**tire spike** [N-C-U15]: a sharp device

used to impede or stop the movement of a vehicle by puncturing its tires.

**kołec do przebijania opon**

**TOW** [N-C-U2]: an anti-tank guided missile that can be launched from a variety of different platforms.

**rakietowy, przeciwpancerny pocisk kierowany**

**tracking patrol** [N-C-U13]: a military group that follows an enemy unit, gathering information about the enemy, the route, and the terrain as they track. **patrol postępujący za nieprzyjacielem i śledzący jego ruchy**

**trigger** [N-C-U3]: a part of the firearm that causes it to fire when pressed.

**język spustowy**

**tripod** [N-C-U2]: a structure with three legs made to hold a machine gun, missile, or other weapon.

**trójnóg (podpórka)**

**twin-engine** [N-UNC-U9]: (aircraft) powered by two separate engines.

**dwusilnikowy**

**unmanned aerial vehicle** [N-C-U8]: an aircraft operated remotely with no personnel on board. **bezzałogowy samolot (aparat) rozpoznawczy**

**utility helicopter** [N-C-U9]: a helicopter used for many purposes (transport, surveillance, air or ground assault, etc.). **śmigłowiec wielozadaniowy**

**vehicle commander** [N-C-U7]: the leader of a Stryker IFV who also serves as its gunner. **dowódca pojazdu**

**victim-initiated** [ADJ-U1]: (e.g. mine) operated unintentionally by the person it is meant to harm.

**detonowana przez nieświadomą tego osobę (mina)**

**XM29 OICW** [N-C-U4]: a prototype assault rifle that fires airburst munitions to damage hidden targets. **prototypowy karabinek automatyczny (dostosowany m.in. do miotania amunicji wybuchającej w powietrzu)**
